Commercial Fishing Loan Application Information

Below is a summary of CFAB's **general** requirements and practices. Most of them will be addressed in more detail during the processing of your loan application. **CFAB's loan officers are available to discuss any of them with you.**

CFAB can lend money only to Alaska residents. In most cases this requires one year of residency.

-  CFAB is a cooperative which means it is owned by its customers. Each first-time borrower must purchase one share of membership stock (\$100). This provides voting and other ownership rights to the borrower. (Do not send any money at this time.)
-  In addition to the single share of membership stock, each borrower must make an investment in CFAB by purchasing Class B Preferred Stock equal to two percent (2%) of the total loan amount or \$2,500 whichever is less!
-  In the case of a married borrower, it is usually required that the spouse be a co-signer on the loan.
-  CFAB's loans are made at a variable rate of interest; this means that the interest rate may change during the term of the loan.
-  Loans secured by documented vessels involve special and complex papers and requirements, which demand the careful attention of both CFAB and the vessel owner. In addition, there are firm requirements with regard to the type and amount of vessel related insurance.
-  To avoid delays in processing your loan application, please make certain the application is complete and accurate.
